AGENDA
Summit County Council of Governments (COG)
Tuesday, January 31, 2023, at 6:00 PM

NOTICE is hereby given that the Summit County Council of Governments will meet on Tuesday, January 31, 2023, electronically, via Zoom, and at the anchor location of the Ledges Event Center, 202 Park Road, Coalville, UT 84017

(All times listed are general in nature, and are subject to change by the Chair)

To participate in COG meeting via Zoom:
Join Zoom webinar: https://summitcountyut.zoom.us/j/94870632443
OR
To listen by phone only: Dial 1-301-626-6799, Webinar ID: 948 7063 2443

6:00 PM - Introduction of County Manager, Shayne Scott, and new Council Members, Canice Harte and Tonja Hanson, and Francis City Mayor, Jeremie Forman; Roger Armstrong (20 min)

6:20 PM - Introduction to COG, its purpose, and Bylaws; Dave Thomas (10 min)

6:30 PM - Nominations and appointment of 2023 COG Chair, Vice Chair, and Secretary/Treasurer (5 min)

6:35 PM - Discussion regarding Transportation Sales Tax Projects/Small Cities Grant Program; Brandon Brady (20 min)

6:55 PM - Discussion regarding Summit County’s County Visioning Process and the Summit County Community Planning Lab, Derek Siddoway and Maddy McDonough (10 min)

7:05 PM - Update on affordable/workforce housing; Jeff Jones (10 min)

7:15 PM - Update on Community Renewable Energy Agency progress and next steps; Emily Quinton (10 min)

7:25 PM - Update on North Summit Fire Department; Roger Armstrong and Ben Nielson (10 min)

7:35 PM - Update on Emergency Medical Services; Janna Young and Ryan Stack (10 min)

7:45 PM - Set date of next COG meeting: ______________, 2023

Members of the Council of Governments, presenters, and members of public, may attend by electronic means, using Zoom (phone or video). Such members may fully participate in the proceedings as if physically present. The anchor location for purposes of the electronic meeting is the Ledges Event Center, 202 Park Road, Coalville, UT 84017

Individuals with questions, comments, or needing special accommodations pursuant to the Americans with Disabilities Act regarding this meeting may contact Annette Singleton at (435) 336-3025
Council of Governments

A Primer
What is a Council of Governments?

- Voluntary Association of local governments (generally counties and cities) formed by Interlocal Agreement
- Cooperative planning, coordination and technical assistance on issues of mutual concern that cross jurisdictional boundaries
  - Community Development (affordable housing, annexation, etc.)
  - Economic Development
  - Transit and Transportation
  - Water
  - Emergency Management
- Allows consensus building at a sub-regional or regional level
- Serves to unify jurisdictions and agencies on matters of mutual concern, but independent of the responsibilities traditionally exercised by individual members
Summit County Council of Governments

- Formed in 2006 by Interlocal Agreement, amended in 2010 and 2013
- Membership
  - County Council and Mayors of each municipality
  - Ex Officio members: Board Chairs of each school district and Executive Director of PC Chamber
- Voting (County has 3 votes and each Mayor has 1 vote)
- Quorum (5 members constitutes a quorum and a majority vote of the members present to transact business)
- Officers (Chair, Vice Chair and Secretary/Treasurer)
- Staff: Summit County
- Purposes
  - Problem solving forum for regional problems
  - Economies of scale
  - Comprehensive plans for growth and development
  - Improving public services
- Powers
  - Make recommendations to the COG member elected bodies
  - Provide endorsements for Local Option Corridor Preservation Funds
- Meetings (Quarterly)
Bylaws

• Chair sets agenda (Members can ask to place items on the agenda)
• Procedure: Roberts Rules of Order
• Code of Conduct (be kind – members can disagree without being disagreeable)
• No voting in absentia. All votes are cast verbally. A roll call vote may be requested by any member.
January 31, 2023

To: Council of Governments
    Janna Young, Interim County Manager

From: Brandon Brady, P.E., Regional Transportation Planning Deputy Director, Summit County

Re: Transportation Sales Tax/Small Cities Grant Program

Background:
The Transportation Sales Tax (TST) Proposition was approved by Summit County voters in November of 2016. The program provides counties a source of revenue, approved by the State Legislature, to help manage the growing impacts to their transportation systems due to growth and congestion. TST funding has provided approximately $5 million annually for Summit County since 2018. The annual budget has been constrained at around $4.2 million to build a fund balance. The funds generated are governed by UCA 59-12-2217 (see Appendix A). Per state code, the Council of Governments (COG) serves as the program manager and is responsible for developing funding criteria, program priorities, and for recommending projects to the Summit County Council for final selection. The program criteria were previously developed and incorporated in the TST Project Application.

The Small Cities Grant Program:
This program was originally set at $250,000 and then amended to $275,000 in 2021. In 2022, County Council approved $420,000 for small city projects. Due to the continual rise of projects, and to make sure each city received funding, the COG explored other allocation options. On September 20, 2022, the COG approved changes that enabled small cities to receive a set amount of the Small Cities Grant Program based on a three (3) year rolling average of the actual amounts received from the 3rd Quarter Sales Tax into the TST Fund. This change means that:

- Small Cities no longer need to submit applications for the annual awards
- Amount are set by a percentage of the funds collected using the distribution amounts from the 2nd Quarter.
- Distribution of funds would still be on a reimbursement basis. Cities would submit paid invoice information to Summit County to demonstrate road improvement projects.
Cities have 5 years to complete the projects and seek reimbursement. Funds not distributed in those 5 years would need a special exception granted by the COG and County Council. Without that, funds would be placed in a pool where all participating cities would be able to submit applications to use those funds on other projects.

This recommendation from the COG was adopted by the Summit County Council on October 19, 2022.

**Planned Funding and Timeline:**
The planned projects are broken down into two categories: a “Pay as you Go” (PAG) projects and bond projects. PAG has budgeted $2.1 million annually for the Small Cities Grant and smaller projects and the bond projects is for bigger projects that needed larger amounts of funding. The current project master list was last updated in December of 2022 and is shown in Appendix B. In Appendix B, Table 1 is the Small Cities Grant, Table 2 is the PAG projects, and Table 3 is the bond projects. All the bond money has been reserved for projects out to 2026. All new projects through 2026 must be contained within the $2.1 million in the PAG. In the tables shown in Appendix B there are significant funds set aside for approved project that entities need to push to completion or reprioritize and reprogram if they are not going to implement the approved projects.

To help meet the schedule the following timeline is proposed:

- **Week of February 13, 2023:** applications will be sent to applicants.
- **On or before 5pm on Friday, March 31, 2023:** Project applications must be submitted to the Summit County Transportation Planning Deputy Director via email at bbrady@summitcounty.org
- Applications will be reviewed for accurate scoring and distributed to the COG for review. Projects will be discussed by the COG at the next regularly scheduled meeting.

**Appendices:**
Appendix A – UCA 59-12-2217
Appendix B – TST Project Master List
Appendix A

Effective 5/12/2020

59-12-2217. County option sales and use tax for transportation -- Base -- Rate -- Written prioritization process -- Approval by county legislative body.

(1) Subject to the other provisions of this part, and subject to Subsection (8), a county legislative body may impose a sales and use tax of up to .25% on the transactions described in Subsection 59-12-103(1) within the county, including the cities and towns within the county.

(2) (a) Except as provided in Subsection (2)(b), and subject to Subsections (3) through (6) and Section 59-12-2207, the revenue collected from a sales and use tax under this section may only be expended as described in Section 59-12-2212.2.

(b) Subject to Subsections (3) through (6), in a county of the first or second class, or if a county is part of an area metropolitan planning organization, the revenue collected from a sales and use tax under this section may only be expended as described in Section 59-12-2212.2, and only if the expenditure is for:

(i) a project or service:

(A) relating to a regionally significant transportation facility or collector road for the portion of the project or service that is performed within the county;

(B) for new capacity or congestion mitigation, and not for operation or maintenance, if the project or service is performed within the county; and

(C) on a priority list created by the county’s council of governments in accordance with Subsection (5) and approved by the county legislative body in accordance with Subsection (5);

(ii) corridor preservation for a project or service described in Subsection (2)(b)(i)(A) or (B); or

(iii) debt service or bond issuance costs related to a project or service described in Subsection (2)(b)(i)(A) or (B).

(c) The restriction in Subsection (2)(b)(i)(B) from using revenue for operation or maintenance does not apply to any revenue subject to rights or obligations under a contract entered into before January 1, 2019, between a county and a public transit district.

(3) For revenue expended under this section for a project or service described in Subsection (2) that is on or part of a regionally significant transportation facility and that constructs or adds a new through lane or interchange, or provides new fixed guideway public transit service, the project shall be part of:

(a) the statewide long-range plan; or

(b) a regional transportation plan of the area metropolitan planning organization if a metropolitan planning organization area exists for the area.

(4) (a) As provided in this Subsection (4), a council of governments shall:

(i) develop a written prioritization process for the prioritization of projects to be funded by revenues collected from a sales and use tax under this section;

(ii) create a priority list of transportation projects or services described in Section 59-12-2212.2 in accordance with Subsection (5); and

(iii) present the priority list to the county legislative body for approval in accordance with Subsection (5).

(b) The written prioritization process described in Subsection (4)(a)(i) shall include:

(i) a definition of the type of projects to which the written prioritization process applies;
(ii) subject to Subsection (4)(c), the specification of a weighted criteria system that the council of governments will use to rank proposed projects and how that weighted criteria system will be used to determine which proposed projects will be prioritized;

(iii) the specification of data that is necessary to apply the weighted criteria system;

(iv) application procedures for a project to be considered for prioritization by the council of governments; and

(v) any other provision the council of governments considers appropriate.

(c) The weighted criteria system described in Subsection (4)(b)(ii) shall include the following:

(i) the cost effectiveness of a project;

(ii) the degree to which a project will mitigate regional congestion;

(iii) the compliance requirements of applicable federal laws or regulations;

(iv) the economic impact of a project;

(v) the degree to which a project will require tax revenues to fund maintenance and operation expenses; and

(vi) any other provision the council of governments considers appropriate.

(d) A council of governments of a county of the first or second class shall submit the written prioritization process described in Subsection (4)(a)(i) to the Executive Appropriations Committee for approval prior to taking final action on:

(i) the written prioritization process; or

(ii) any proposed amendment to the written prioritization process.

(5) (a) A council of governments shall use the weighted criteria system adopted in the written prioritization process developed in accordance with Subsection (4) to create a priority list of transportation projects or services for which revenues collected from a sales and use tax under this section may be expended.

(b) Before a council of governments may finalize a priority list or the funding level of a project, the council of governments shall conduct a public meeting on:

(i) the written prioritization process; and

(ii) the merits of the projects that are prioritized as part of the written prioritization process.

(c) A council of governments shall make the weighted criteria system ranking for each project prioritized as part of the written prioritization process publicly available before the public meeting required by Subsection (5)(b) is held.

(d) If a council of governments prioritizes a project over another project with a higher rank under the weighted criteria system, the council of governments shall:

(i) identify the reasons for prioritizing the project over another project with a higher rank under the weighted criteria system at the public meeting required by Subsection (5)(b); and

(ii) make the reasons described in Subsection (5)(d)(i) publicly available.

(e) Subject to Subsections (5)(f) and (g), after a council of governments finalizes a priority list in accordance with this Subsection (5), the council of governments shall:

(i) submit the priority list to the county legislative body for approval; and

(ii) obtain approval of the priority list from a majority of the members of the county legislative body.

(f) A council of governments may only submit one priority list per calendar year to the county legislative body.

(g) A county legislative body may only consider and approve one priority list submitted under Subsection (5)(e) per calendar year.
(6) In a county of the first class, revenues collected from a sales and use tax under this section that a county allocates for a purpose described in Section 59-12-2212.2 shall be:
   (a) deposited in or transferred to the County of the First Class Highway Projects Fund created by Section 72-2-121; and
   (b) expended as provided in Section 72-2-121.

(7) Notwithstanding Section 59-12-2208, a county legislative body may, but is not required to, submit an opinion question to the county's registered voters in accordance with Section 59-12-2208 to impose a sales and use tax under this section.

(8) (a) (i) Notwithstanding any other provision in this section, if the entire boundary of a county is annexed into a large public transit district, if the county legislative body wishes to impose a sales and use tax under this section, the county legislative body shall pass the ordinance to impose a sales and use tax under this section on or before June 30, 2022.
   (ii) If the entire boundary of a county is annexed into a large public transit district, the county legislative body may not pass an ordinance to impose a sales and use tax under this section on or after July 1, 2022.

(b) Notwithstanding the deadline described in Subsection (8)(a), any sales and use tax imposed under this section on or before June 30, 2022, may remain in effect.

- Payday Drive

**Park Ave Complete Street Project**  
The project includes transit stop enhancements, multi-modal improvements, pathways, active transportation connections to critical destinations along the corridor.

**Park City Snow Creek Pedestrian Tunnel**  
Construction of Pedestrian Underpass of SR-248 at Snow Creek Drive

**Rail Trail Off Grade Crossing**  
Complete a bicycle/pedestrian bridge at the intersection of SR-248 and the Historic Union Pacific Rail Trail, just east of the SR-248/Highway 40 interchange

**Quinn's Park and Ride Phase II Amenities**  
Development of bus shelters, a small transit center and end of line facility for drivers, an overhead electric bus charger, e bike share stations, landscaping, and others.

**Old Hwy 40/ SR 248 Realignment**  
Move the current intersection of Old Hwy 40/SR-248

**SR-224 BRT/Fixed Guideway Design and Construction**  
BOND (2nd)

### Summit County

**Old Hwy 40/ SR 248 Realignment**  
Move the current intersection of Old Hwy 40/SR-248

### SC/PC

#### Quinn's Park and Ride Phase II Amenities
- Development of bus shelters, a small transit center and end of line facility for drivers, an overhead electric bus charger, e bike share stations, landscaping, and others.

Summit County Council of Governments

January 31, 2023
Transportation Sales Tax
Small Cities Grant Program
Transportation Sales Tax
Background and Information

• Program is a voter approved sales tax source to provide Counties a source of revenue to help deal with growing impacts to their transportation systems due to growth and congestion

• Approved in November 2016 and implemented in June 2017

• Average amount received is about $5 million annually since 2018, though only $4.2 million budgeted each year to build a fund balance

• Program governed by UCA 59-12-2217

• State code required the COG to serve as the program manager
  • Responsible for developing funding criteria, program priorities, and recommend projects to the County Council for approval
  • The program criteria were previously developed and incorporated into the TST Project Application
Transportation Sales Tax
Background and Information

• Sales and use tax up to 0.25%
• May only be expended for a project or service
  • Related to a regionally significant transportation facility within the County
  • For new capacity or congestion mitigation within the County
  • That is on a priority list created by the COG and approved by the County Council
• Provides construction funding for eligible roadway and transportation improvements
  • Outside City boundary, but regionally significant to the Cities
  • Within City jurisdiction from sales tax
• Project Eligibility Criteria
  • Congestion mitigation
  • Major Maintenance/Reconstruction/Safety Improvements
  • Multi-Modal/Trails
• Focus on eliminating deficiencies
Small Cities Grant Program
Background and Information

- Was originally set at $250,000 and amended to $275,000 in 2021
- In 2022 $420,000 was approved for projects
- In September 2022, COG recommended to distribute based on a 3-year average of actual amounts received from the TST/3rd Quarter tax revenue
- Distribution based on 2nd Quarter sales tax distribution beginning in 2023
- Small Cities will no long need to submit applications for annual rewards
- Distribution of funds will still be on a reimbursement basis
- Cities will have a rolling 5 years to complete the projects and seek reimbursement
- Funds not distributed in 5 years would be place in a pool where all participating Cities would be able to submit applications to use the funds
- Cities will have the opportunity to request an extended period for larger projects upon approval of the COG and County Council
- Adopted by County Council in October 2022
Timeline for Future Projects

- Week of February 13, 2023, applications will be sent out
- March 31, 2023, applications are due
- Applications will be reviewed and distributed to the COG for review.
- Projects will be discussed by the COG at the next scheduled meeting
- Will have budget numbers for the Small Cities Grant next meeting based on the new adopted method
OUR SUMMIT
INSPIRE THE FUTURE OF SUMMIT COUNTY
Our Summit
Summit County 2023 Community Visioning

**What** – A county-wide visioning project to serve as a compass for future county decisions regarding

- land use
- community planning
- sustainability
- housing
- & much more

The goal is to create a cohesive vision and strategic plan to help guide the future of Summit County for the next 10-20 years.
Timeline

4 Phases spanning the next 9 months
• Currently in Phase 1: January – March
• Community conversations/information gathering
  • What people love about the county
  • What could be improved
Engage at every stage - virtually or at an event in your district.
Action Items

1. Spread the word! [https://oursummitcounty.com](https://oursummitcounty.com)

2. Take the first survey: [https://oursummitcounty.com/get-involved/survey_tools/questionnaire](https://oursummitcounty.com/get-involved/survey_tools/questionnaire)

3. Attend the kickoff event:
   - Tuesday, Feb. 7, 6-8 p.m.
     South Summit County Services Building (Kamas Library)

4. Encourage Community Connector Applicants

5. Stay tuned for more!
Community Planning Lab

Empowering community members to be more involved in shaping the future of Summit County.
Summary:
- 10-week course building an understanding of planning
- 35 applicants and 30 accepted participants
- Facilitated course sessions and guest speakers
- Consider planning concepts and Summit County specifics
- Future: at least once per year
Get Involved!

- Final presentations
  - Monday, April 3 from 6:00 – 8:00pm
  - Summit County Library, Kamas Valley Branch

- Be a mentor
  - Email mmcdonough@summitcounty.org
  - Monday evenings from ~7:15 – 8:00
September 12, 2022
- Data received from State of Utah EMS for Park City, North Summit and South Summit service areas. Analysis if this date begins to identify call volumes for emergency, non-emergency and interfacility transports. Unique call types are also identified in this review.

October 4, 2022
- Introductory call with representatives from Summit County and SafeTech. Overall timeline was discussed and SafeTech’s initial plans for phone interviews with stakeholders as well as on-site visits.

October 5, 2022
- Financial data for the past 5 years is received and review is initiated. Financial data is inclusive of all three service locations, Park City, North Summit and South Summit.
- Phone interviews with stakeholders from Summit County, Park City / Snyderville Basin, North Summit and South Summit. A list of stakeholders was provided by Summit County. The list had 86 names on this and also described the stakeholder’s affiliation and connection to this project.
- Phone interviews were partially successful. Baseline information was obtained, making on-site time more productive.

October 20, 21 and 22, 2022
- On-site interviews were held.

October 20th – Kamas
- 12 interviews with stakeholders were held as well as an open public meeting that evening.

October 21st – Coalville
- 13 interviews with stakeholders were held.

October 22nd – Park City / Snyderville Basin
- 10 interviews with stakeholders were held. On-site visit to one of the Park City Fire stations. Interview with Chief Pete Emery. Overview of staffing patterns, station locations and resources available were described.

October 27, 28 and 29, 2022
- On-site interviews were held.

October 27th – Coalville
- 12 interviews with stakeholders were held as well as an open public meeting that evening.
October 28<sup>th</sup> – Snyderville Basin

- 14 interviews with stakeholders were held as well as an open public meeting that evening.
- SafeTech representative spent the majority of the day with Park City Fire officials in order to gain deeper knowledge of the system capabilities, processes followed and resources available.

October 29<sup>th</sup> – Kamas

- 12 interviews with stakeholders were held.

October 31<sup>st</sup> – November 14<sup>th</sup>

- Review team summarized notes, assured questions amongst team members were addressed.

November 21<sup>st</sup>

- Communicated with the Summit County dispatch center and received data from that office, showing ambulance activity for previous years channeled through the years.

December 2022 - January 2023

- From the subjective and objective data collected, SafeTech Solutions team has been analyzing Summit County’s strengths and weaknesses, sustainability and need for change. SafeTech Solutions is assess the current capabilities, strengths, weaknesses, coverage gaps and workforce shortages using common quality and performance improvement, benchmarks, indicators and scoring formats. The purpose of the evaluation is to assess EMS in comparison to industry standards and best practices, as well as to create benchmarks for future measurements.

Totals

- Phone interviews – 86 requests.
- In-person interviews – 73 interviews conducted.
- Public meetings – listening sessions – 3 held (one in each location)
- Financial Reports
- Ambulance Call volume reports
- Ongoing project calls with Park City Fire Leaders
- Ongoing calls with Summit County Leaders
E. Ongoing Schedule

The next major steps in the project are as follows:

- Presentation of a possible EMS system to key Summit County Stakeholders (Feb – March)
- Modify and adjust possible EMS system based on stakeholder feedback (March – April)
- Schedule and conduct three in-person community presentations of the possible EMS system (April – May)
- Provide final written report (May)

Phase III: Future System Demand Projections

February – March 2023

SafeTech Solutions will help guide Summit County leadership in understanding its probable future EMS needs, challenges and opportunities based on the evaluation and interpretation of a range of data, including population growth projections, service demand projections, community development information and community risk analysis.

The work in this phase will be centered around helping Summit County leadership envision and identify the big, guiding vision, mission, beliefs and behaviors, and strategic priorities for meeting its probable future EMS needs and challenges. SafeTech Solutions will facilitate visioning and planning conversations that are rooted in clear-eyed analysis of existing data and that aspire to motivate stakeholder and community buy-in. In Phase III, these conversations will take place remotely, via Zoom or conference call. These conversations set the stage, however, for continued visioning and in-depth planning meetings held in Phase IV.

Phase III will also see SafeTech Solutions begin a public engagement and outreach effort in the three geographical areas of the County. This effort will include the development and delivery of educational materials about the cost of providing EMS and the history of and issues related to funding EMS not only in Summit County but nationwide. The public outreach efforts will be held via Zoom and will seek to begin a dialog about expectations, needs and desires for the present and future.

Phase IV: Future Delivery System Models

March 1, 2023 – April 30, 2023

In this phase, SafeTech Solutions’ guidance and facilitation will be conducted in-person with Summit County’s project team and other key stakeholders as agreed upon. The work in this phase will be to facilitate discussion and buy-in of the long-term strategy while identifying and making clear short- and mid-term steps. Crucial to this phase is the facilitated development
of a draft playbook, the simple document that makes available in clear, straightforward language the long-term vision as well as next concrete strategies for moving the process forward. The draft of the playbook will involve deep engagement and participation by Summit County’s project team. Discussion, clarification, ownership and the building of enthusiasm are all part of this phase.

SafeTech Solutions understands that depending on the various operational models discussed along the planning path, the playbook may necessitate the development of additional supporting documents. The focus will be as much upon the people and the process, however, as it is upon the documentation. The playbook is the simple, modifiable tool that reminds, inspires and motivates forward-moving progress. It keeps the short- and mid-term strategies agile while the long-term vision is kept alive.

After the playbook has been co-drafted by SafeTech Solutions and the Summit County project team, but before delivery of the final report, SafeTech Solutions will develop a public presentation to translate the vision and playbook (the master plan) to the wider public, for the purpose of providing information and soliciting feedback. SafeTech Solutions will facilitate a community public input meeting in each geographical area of the County to assess public sentiment toward potential future system changes. Feedback and any data collected from these meetings will be summarized and presented in the final report.

**Phase V: Delivery and Presentation of Final Report**

**May 1, 2023 – May 31, 2023** SafeTech Solutions will provide Summit County leadership a final report of the work done along with the final version of the playbook. SafeTech Solutions will return to Summit County to present the work and engage in a robust conversation of observations, key findings and recommendations.
