Today the Summit County Attorney's Office filed a petition in the Third District Juvenile Court stemming from an incident in which a substance was released into a room at Park City High School on April 1, 2019 that resulted in numerous students and teachers being treated by medical personnel.

Because this is a juvenile case, any further questions regarding the filing of the petition should be directed to Geoffrey Fattah, the Communications Director of the Utah State Courts. Mr. Fattah can be reached at 801-578-3994.

No further details regarding this active case will be released.
